

TYGGEMUSKLERNE

Vi gentager tyggemusklernes
udspring på kranieworkshop

TYGGEMUSKLER

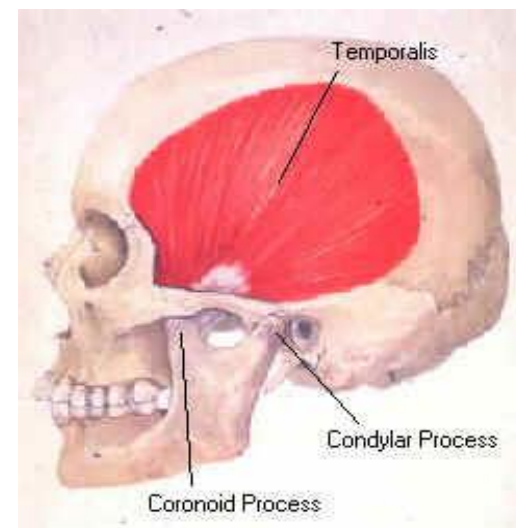

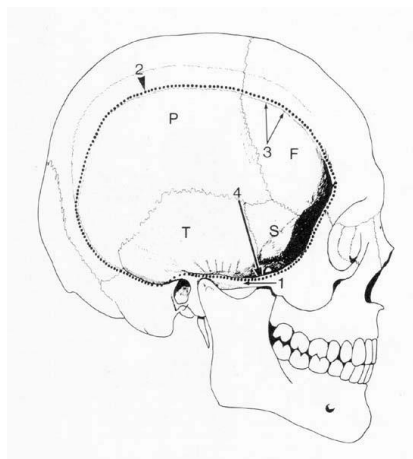

m. temporalis

Udspring:

- fra knogle og fascie under linea temporalis

Tilhæftning:

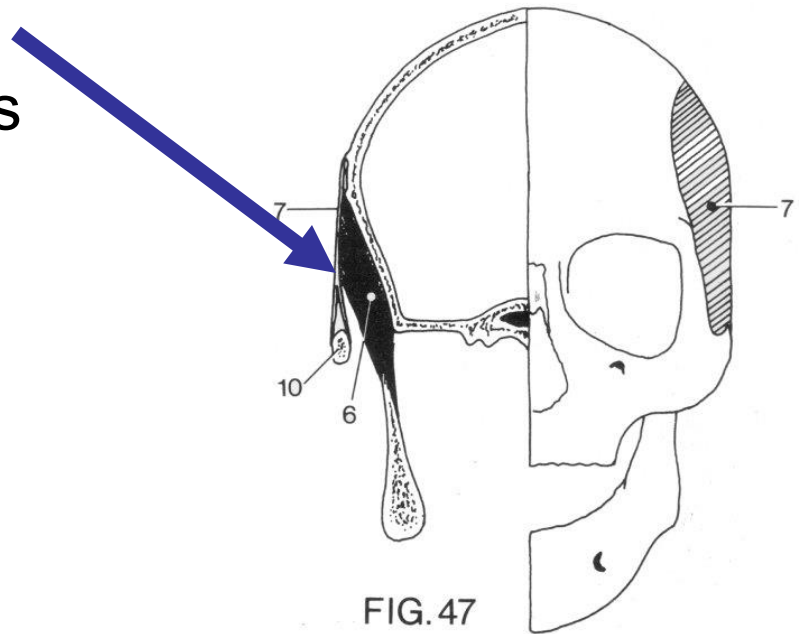

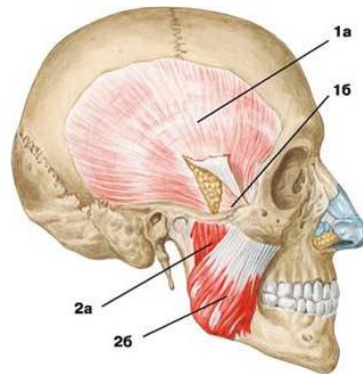

- processus coronoideus

TYGGEMUSKLER

m. temporalis

- dækkes af fascia temporalis på lateralflden

TYGGEMUSKLER

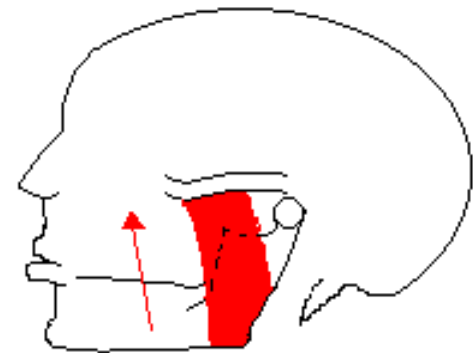

m. masseter

udspring:

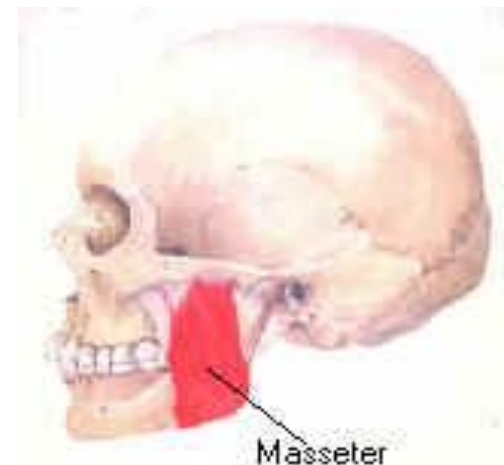

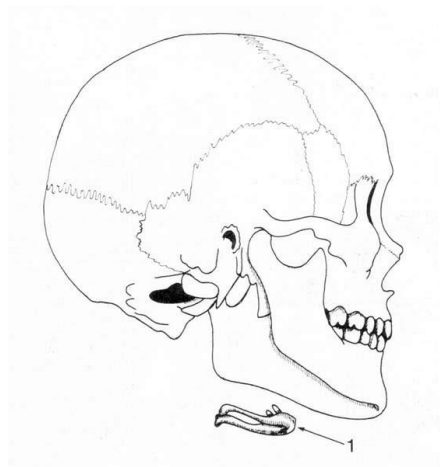

- arcus zygomaticus

tilhæftning:

- lateralfladen af ramus mandibula

sådan?

TYGGEMUSKLER

m. masseter

- dækkes af fascia masseterica på lateralflden

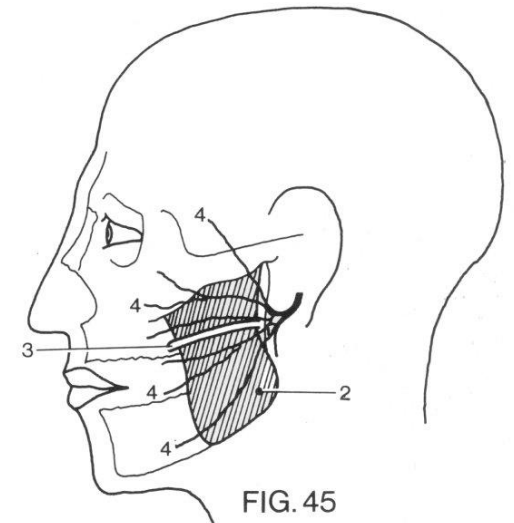

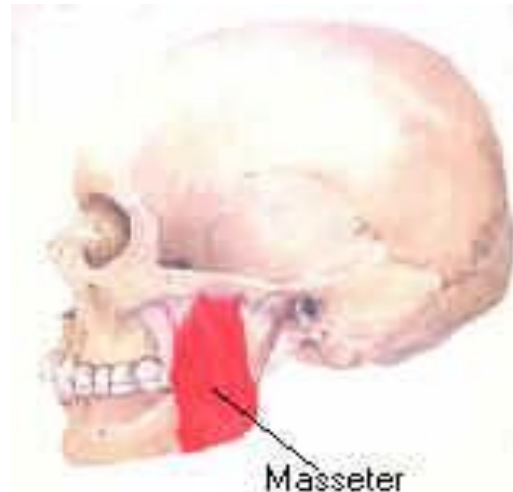

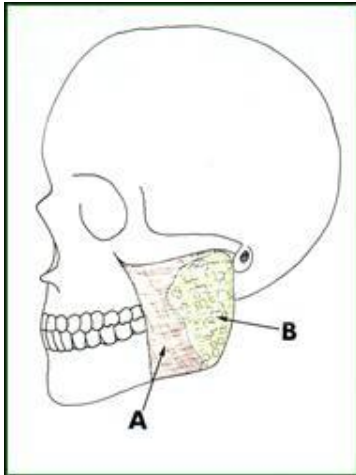

FIG. 45

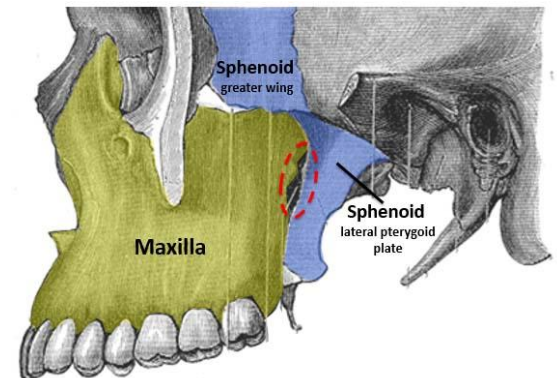

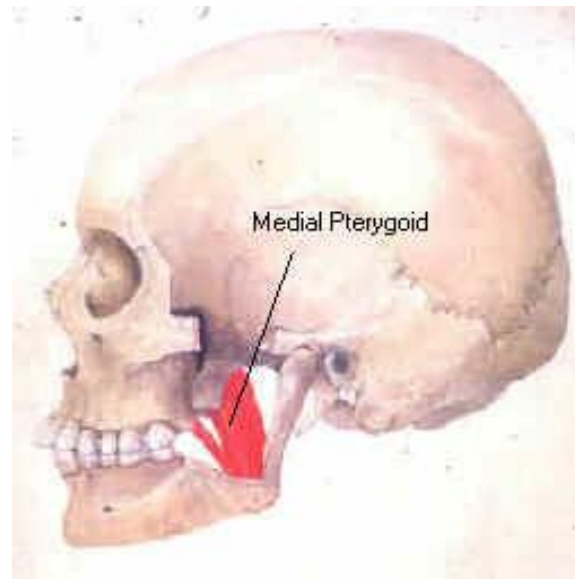

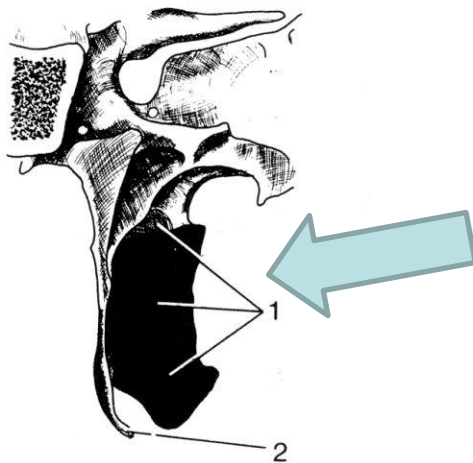

TYGGEMUSKLER

m. pterygoideus medialis

Udspring:

- fossa pterygoidea

FIG.49F

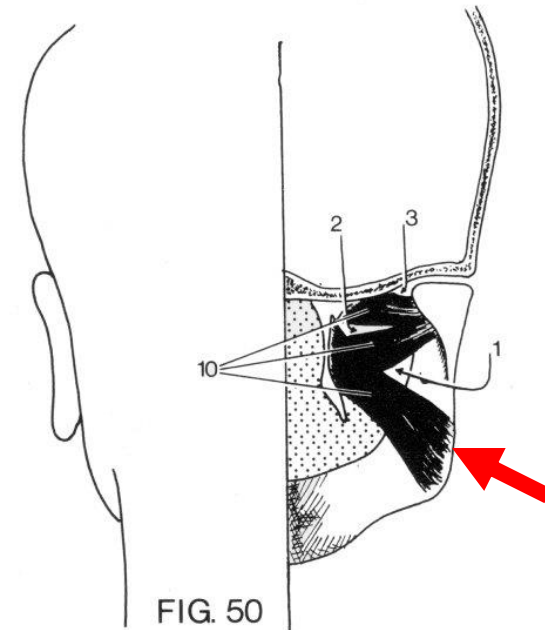

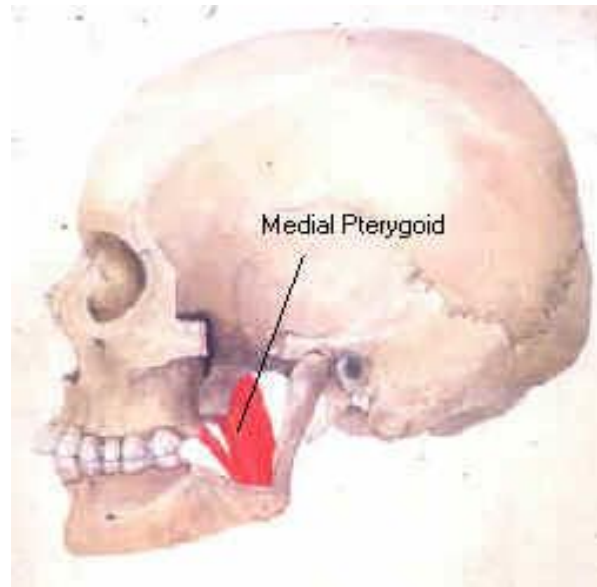

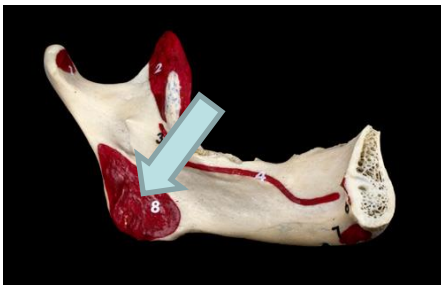

TYGGEMUSKLER

m. pterygoideus medialis

Tilhæftning:

- ramus mandibula (medialfladen)

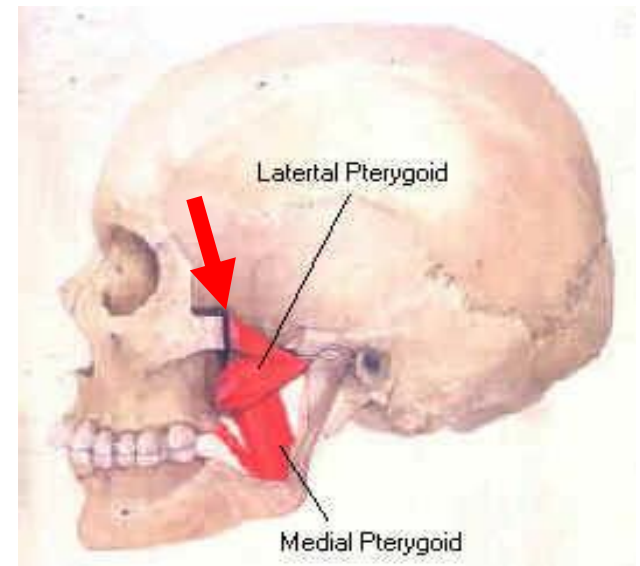

TYGGEMUSKLER

m. pterygoideus lateralis

Udspringer på:

- processus pterygoideus
(lateralfladen)

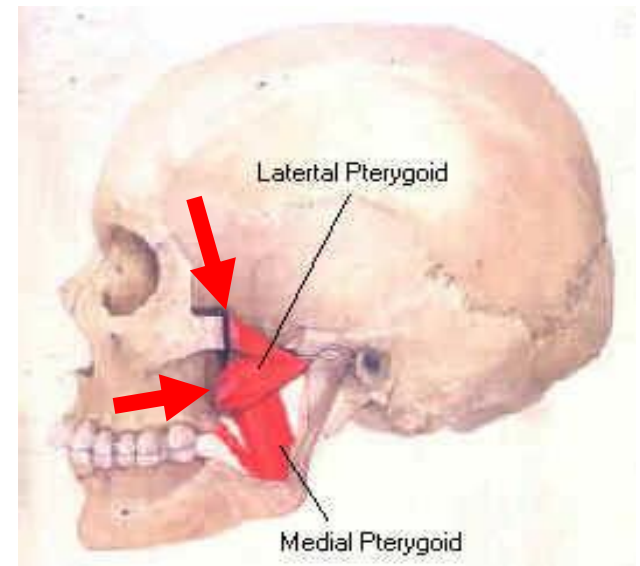

TYGGEMUSKLER

m. pterygoideus lateralis

Udspringer på:

- processus pterygoideus (lateralfladen)
- facies infratemporalis alae majoris (på kilebenet)

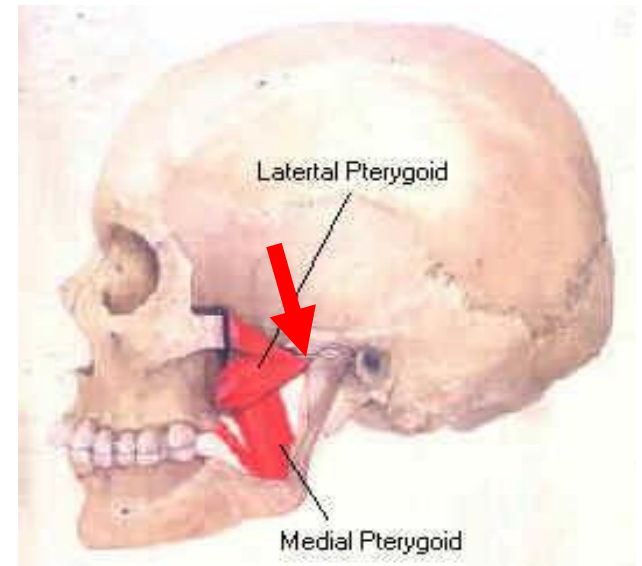

TYGGEMUSKLER

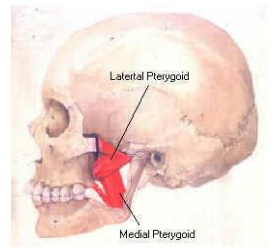

m. pterygoideus lateralis

Tilhæftning:

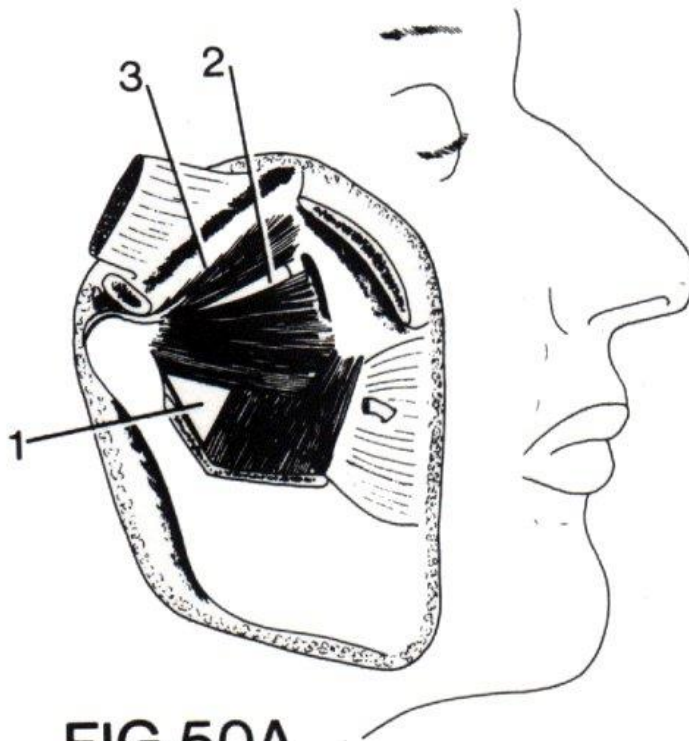

- processus condylaris
- kæbeledskapslen

TYGGEMUSKLER

pterygoidermuren
